Pretty insane game, finished it in 15+ hours. Luck wise, it's little bit annoying. And folding vs AI's is not fun most of the time. Other than that, game is pretty unique and balanced. Have fun.. Hobo with a shotgun practically owns this game.. **Game is broken.**

**Timer locks up at 2.5 hrs pretty reliably.**

**I'm super dissatisfied with this purchase.. Good game, expect to play it through 1-3 times, lasting about 10 hours in total i guess. Worth. Game looks like it might be fun if they fix the controller support. Xbox 360 controller here, no excuse for getting THAT controller support wrong...patch it please so I can play and I will recommend as long as it's a decent game.. Though it's still early days for VR, I keep wondering what will be the first game that will soak up hundreds of hours for me - not just a shallow five-minute or hour-long experience, but a real game that keeps you coming back for more. I haven't played that much of Star Shelter yet, but what I've seen is deeply impressive and hints at the possibility of something really deep and addictive.**

Star Shelter reminds me of other space survival games like Space Engineers or Starmade, and in that regard it's not really reinventing the genre or anything. But this is, of course, in VR - and what an amazing difference that makes. The movement mechanic is very intuitive and very fun - like a real astronaut, you grab handles and bars to fling yourself around, and there will be plenty of *Gravity*-style situations where you reach out to grab a passing satellite just in time before floating into deep space. You do have thrusters if you miss - but in a clever mechanic, using the thrusters depletes your oxygen supply. So there's a constant challenge of exploring as much as you can without suffocating on the way.

There are some annoyances - picking up resources feels clunkier than it should be, and I'm still not really clear on how you replenish your oxygen supply without being lucky enough to find a spare tank floating around. But that's all early access stuff and there's plenty of fun for the money even at this stage.

That sense of wonder that VR promises is fulfilled in Star Shelter - coming across a derelict spaceship, hacking the airlock open, and pulling yourself inside to find the eerie abandoned bunks and silent cockpits of the dead craft. Clinging on to your space station with one hand while lining up a shot on a rogue comet with the other. The palpable sense of relief when you enter an oxygen pocket and raise your hand to your helmet to open the visor. It's a really strong start and I'm excited to see what comes next.

This is a good game, but, it is hard. I was about to beat the Persians, then Alexander died... You only get 100 turns, and Alexander dies around the age of 50? I think? I don't know but, You cannot play as Persia, from what I know. But if you do a custom battle, you can fight as or against India, but so far, I don't know if you can.. Golf with friends, but only if they aren't sitting in the same room with you. Why no offline single/couchmultiplayer?. Decent platformer. Easy and fun to play, nice atmosphere.. It is a fun and unique space exploration game with procedural generation, good humor, and interesting encounters.. The most brilliantly egotistic British narrator in all history of entertainment. And if you're a fan of Fawlty Towers, you'll be happy to see someone modeled after John Cleese's character, and brilliantly so. Brilliant!. After both of my parents died in a car crash. I was left alone. It was a very sad time in my life that is until... I discovered Bomb Tag. Bomb tag not only is a fun game but a beautiful reflection about our society. Bomb tag helped me forget and not care about my dead parents. All I CARED ABOUT WAS BOMBS, BOMBS, BOMBS and tagging people with them.

10/10 would save me from suicide again.. Fun Strategy game, Quick matches.

**. Playtesting video for the next update:**

Thought you guys might enjoy taking a look at this playtesting video we made yesterday for our own internal use.

When you've been working on a game for multiple years, it's very difficult to know if the game's too hard or too easy, because everything becomes easy for you.

So we bring in playtesters on occasion to get a better picture of how difficult the game is and how comprehensible its various mechanics are to new players.
